

The reason I started my business was so I could help people who were not fortunate enough to have a beautiful face like so many people. I wanted to give people confidence so they could go out into public without being completely embarrassed. I feel that everyone should have a chance to make themselves beautiful. I went to a special college in Switzerland that specialized in plastic surgeries. While I was there I saw many examples of what is out there. Trust me there is nothing that cannot be fixed. If there is something wrong with you, I can fix it.

When the surgery is finished, you will feel like a completely new person.

Before I went to Surgeries R Us, I wouldn't go out in public very often. I felt terrible about myself and the way I looked and I didn't know what I was going to do with my life. But now I KNOW I can do something with my life.
